

ARCIL DN200 LOW OUTPUT FORM-FILL-SEAL

The Arcil DN200 is a cost-effective FFS machine for dairy and food products. With a compact footprint and mechanical technology, it is suitable for PS, PP and multilayer applications. The DN200 is ideal for small product runs and new product market tests, and has a speed range of up to 5,400 cups per hour.

WHY CHOOSE THE ARCIL DN200?

Features

Engineered for Performance

Efficient Dosing

Designed for Easy Cleaning and Accessibility

Tray (Multipack config x1 x2 x4)

- Trimming dimensions - 94 x 94mm
- Height - 10 to 45mm

Small Portions Cups (Multipack config x1 x2 x4 x8)

- Trimming dimensions - 48 x 48mm
- Height - 10 to 55mm

Mini Portions (Multipack config x1 x2 x4 x6)

- Trimming dimensions - 40 x 52mm
- Height - 10 to 40mm

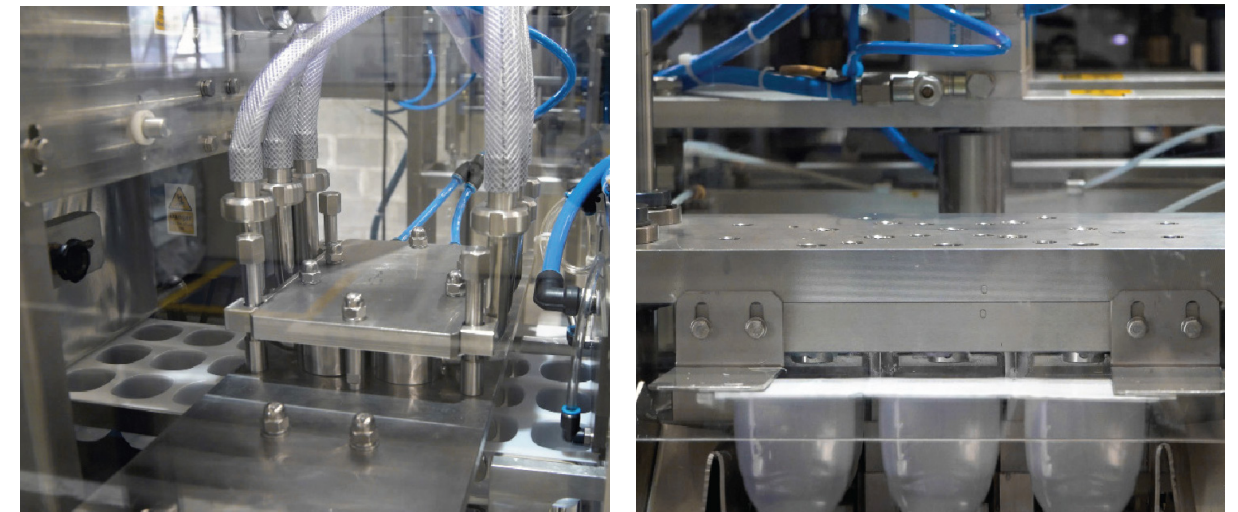

Cups without Labels (Multipack config x1 x2 x6)

- Trimming dimensions - 63 x 63mm
- Height - 10 to 60mm

ARCIL DN200 LOW OUTPUT FORM-FILL-SEAL

The Arcil DN200 is highly engineered for performance, with a customizable speed up to 15 cycles per minute and a production output up to 5,400 cups per hour and 10,800 per mini portions. With a footprint of 2.9L x 0.9W x 1.9H meters, it can fill various formats from 10 to 240g. The DN200 is suitable for most homogeneous and pumpable products with fruit pieces. The machine is designed with hygiene and ease of use in mind, as it features high visibility on stations and tooling, and high accessibility for inspections, maintenance and cleaning operations. It also offers customizable HMI visualization for optimized production reporting and operations at chest height (110 cm/43.3 in).

BW Packaging offers a global commitment for hygienic, integrity and accuracy of the filled products. Fill testing is available for customer product optimization and faster ramp-up.

Applications / Industries:

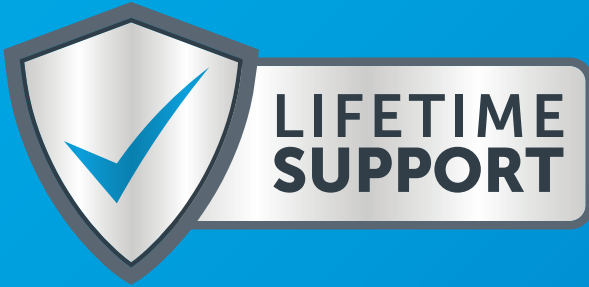

- ✓ Desserts
- ✓ Cream
- ✓ Dairy
