

# DAIRY PACK RM40B, RM80B BOTTLE FILLER

The Dairy Pack RM40B is a compact bottle filler for liquid products, adapted to sensitive products and designed with inline indexed technology for precise, consistent operation. It is able to handle two neck diameters and runs at a speed range of 12,000 bottles per hour, or 24,000 for the RM80B, delivering efficient performance in a streamlined format.

The Dairy Pack RM80B is a wider version of the RM40B, adding a parallel line that doubles the output. All systems and technologies are common to both models and can be applied without reservation.

# WHY CHOOSE THE DAIRY PACK RM40B OR RM80B?

## Features

High Operational Efficiency

Adapted to Sensitive Products

Compact with Easy Access & Cleaning

PET Bottle (Large Bottle | 1500ml)

- Neck Diameter: 38mm
- Bottle Body: 55mm
- Height: 260mm
- Product Example: Juice

PP Bottle (Medium Bottle | 300ml)

- Neck Diameter: 28mm
- Bottle Body: 55mm
- Height: 120mm
- Product Example: Coffee Drink

HDPE Bottle (Small Bottle | 80ml)

- Neck Diameter: 28mm
- Bottle Body: 40mm
- Height: 75mm
- Product Example: Drinkable Yogurt

PS Bottle (Shaped Bottle | 450ml)

- Neck Diameter: 38mm
- Bottle Body: 60mm
- Height: 180mm
- Product Example: Flavored Milk

## DAIRY PACK RM40B MEDIUM OUTPUT INLINE BOTTLE FILLER

Designed for high operational efficiency, the RM40B offers customizable speed up to 30 cycles per minute with production output up to 12,000 bottles per hour, or 24,000 for the RM80B. It fills various formats from 80 to 1,500 ml, handles up to two different bottle neck diameters, runs PET, HDPE, PP, and PS materials, is compliant with CE regulations, and features operations at chest height (110 cm / 43.3 in).

Adapted to sensitive products, it provides a hygiene level suited to product specifications, is suitable for most homogeneous and pumpable products with fruit pieces, and supports BW Packaging's global commitment for hygienic operation, integrity, and accuracy of the filled products. Fill testing is available for customer product optimization and faster ramp-up. Compact with easy access and cleaning, the machine has a 7L x 4W x 3H m footprint, fast and efficient cleaning, high visibility on stations and tooling, high accessibility for inspections, maintenance, and cleaning operations, and customizable HMI visualization for optimized production reporting.

## Applications / Industries:

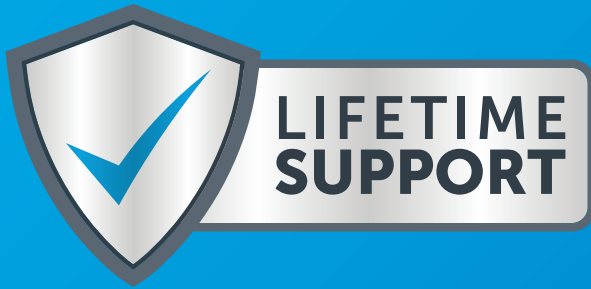

- ✓ Smoothie
- ✓ Juice
- ✓ Drinkable Yogurt
- ✓ Milkshake
- ✓ Bubble Tea
- ✓ Ready-to-drink Tea & Coffee
