

ARCIL DN250 FORM-FILL-SEAL

The Arcil DN250 Form-Fill-Seal machine is built to give your production team exactly what they need: reliable performance, easy operation, and cost-effective output in a compact footprint. Designed for dairy and food applications, the DN250 delivers efficient dosing, smooth mechanical operation, and consistent quality across PS and PET formats—all at speeds up to 8,640 labeled cups per hour. Its accessible layout and easy-to-clean design help operators work faster with fewer interruptions, while its streamlined labeling technology keeps costs down without compromising presentation. The DN250 brings together performance, practicality, and everyday usability to keep your line running confidently and efficiently.

WHY CHOOSE THE ARCIL DN250?

Features

Engineered for Performance

Efficient Dosing

Designed for Easy Cleaning and Accessibility

Cups with Label (Multipack config x2 x4 x8)

- Trimming dimensions - 63 x 63mm
- Height - 40 to 60mm

Cups with Partial Label (Multipack config x2 x4 x8)

- Trimming dimensions - 63 x 63mm
- Height - 40 to 60mm

Large Round Cups (Multipack config x1 x2 x6)

- Trimming dimensions - 73 x 73mm
- Height - 40 to 75mm

Cups without Labels (Multipack config x2 x3 x4 x6)

- Trimming dimensions - 63 x 63mm
- Height - 10 to 75mm

ARCIL DN250 FORM-FILL-SEAL

Engineered for dependable, day-to-day performance, the DN250 gives your team the flexibility and control they need to keep production running smoothly. With customizable speeds up to 18 cycles with decor per minute and outputs reaching 8,640 labeled cups—or up to 18,000 non-labeled cups—this compact 8.2 x 2.5 x 2.7 m system handles formats from 45 to 240 g in PS or PET with ease.

Its efficient dosing platform supports up to two fillers for multi-layer products and manages both homogeneous and pumpable recipes with fruit pieces, backed by BW Packaging's commitment to hygienic, accurate filling. Operators benefit from fast, straightforward cleaning, high visibility across stations, and chest-height access that simplifies inspections and maintenance. A customizable HMI enhances reporting and oversight, while CE-compliant design ensures safe, confident operation shift after shift.

Applications / Industries:

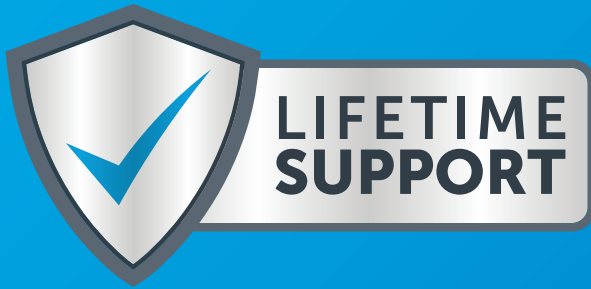

- ✔ Desserts
- ✔ Cream
- ✔ Dairy
