

HAYSSEN CM VERUS VFFS BAGGER

A versatile continuous-motion vertical form-fill-seal bagger designed for trouble-free operation, reliable performance, and an intuitive HMI experience.

APPLICATIONS / INDUSTRIES:

- ✓ Dry Snacks
- ✓ Chips
- ✓ Nuts
- ✓ Cookies
- ✓ And More

WHY CHOOSE THE HAYSSEN CM VERUS?

BUILT WITH VERSATILITY. BACKED BY LIFETIME SUPPORT.

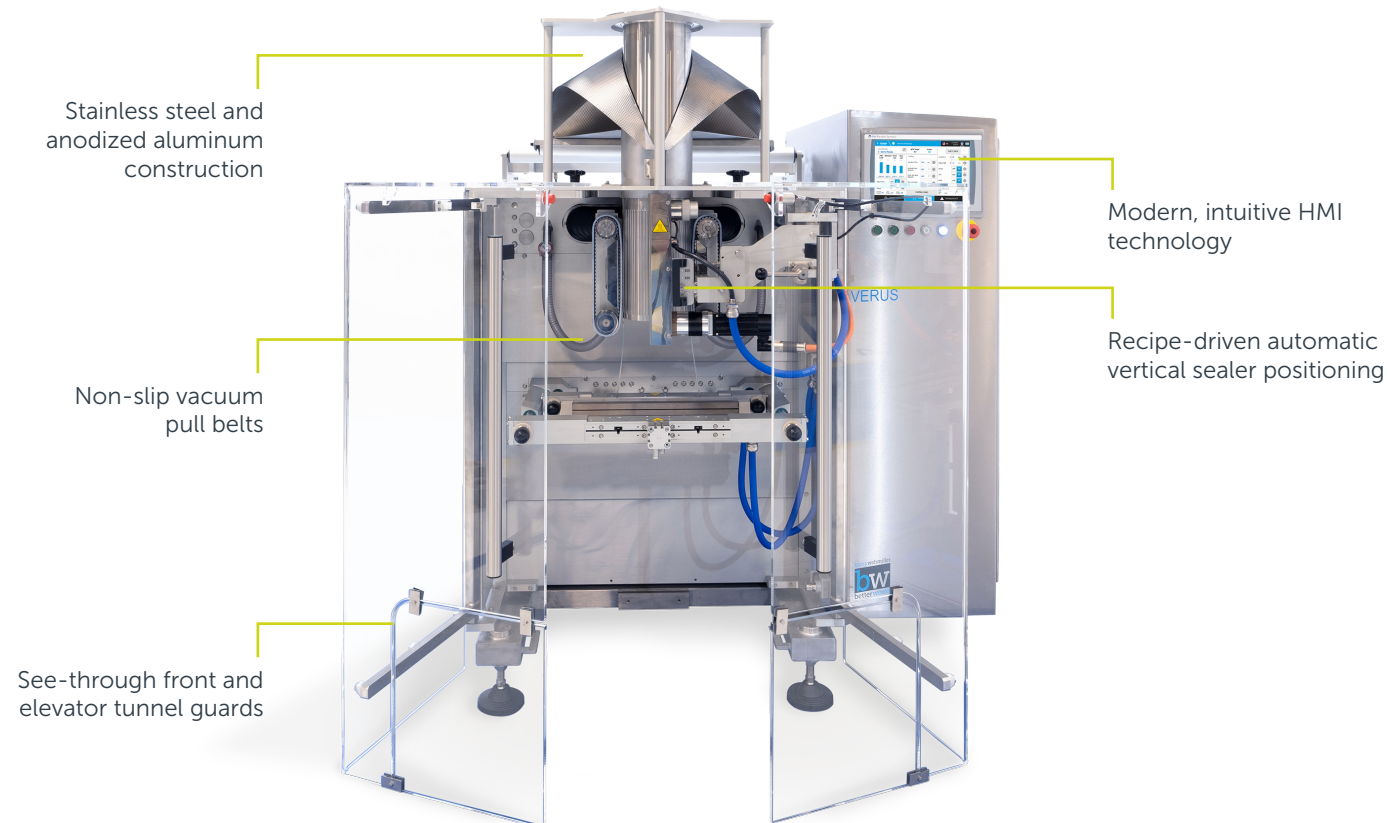

Trouble-Free Operation — Ergonomic, modular design enables tool-less format changes, simplified film threading, recipe-driven settings, and IP65 washdown or wipe-down cleaning.

Reliable Performance — High-speed, servo-driven system with non-slip vacuum pull belts and proven sealing technology delivers consistent, high-integrity seals across a wide variety of bag styles.

Empowers Operators — Modern OpView™ HMI enables operators to be self-sufficient through guided onboarding, intuitive navigation, clear functional parameters, and step-by-step instructions to maximize machine speed.

FLEXIBLE | TRUSTWORTHY | SEAMLESS INTEGRATION

Designed for the unique demands of dry snacks like chips, nuts, popcorn, and cookies, the Hayssen CM Verus delivers unmatched quality, dependable continuous performance, and long-term reliability for any packaging line.

Beyond robust performance, the CM Verus is built for real-world demands. Allen-Bradley motors, drives, and servo-driven jaws deliver high speed with consistent, high-quality seals. Through the modern OpView™ HMI, operators can quickly set up, run, troubleshoot, and optimize the machine— keeping your line moving.

By seamlessly integrating the Hayssen CM Verus with upstream and downstream equipment, we deliver a cohesive, performance guaranteed packaging system— expertly led by our project management team to provide a turnkey solution for your operation.

Specifications			
Motion Type	Continuous	Zipper Applications	Transverse
Production Speed	Up to 150 bpm	Cleaning	IP65 wash down or wipe down
Max Flat Bag Width	15"/381mm	Electrical	400V, 3Ph
Bag Styles	Pillow, Gusset, Block Bottom, Quad	Narrow Width Option	40"/1016mm
Compatible Films	Low-Density Polyethylene, Laminate, Paper, Recyclable, Integrated Zipper	Integrations	Upstream and downstream equipment
